

# Understanding Credit

## What You'll Learn

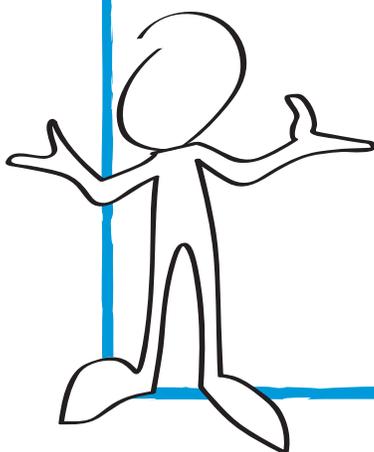

1. Explain why using a credit card is a form of borrowing.
2. Identify the types of credit adults commonly use.
3. Name how many credit cards the average American credit card holder has.

## Talk about It

Ask your child:

- How often do you borrow money?
- How can I create ways to help you pay back the money you borrow?
- What do you think of the way adults use credit?

My Notes:

Visit [www.bankit.com](http://www.bankit.com) for more information on making positive money choices.
