

Dream Well

# My Big Dream, My Little Dream

We all have big dreams and little dreams. Big dreams are ones that we think we can reach when we're older, such as when we are in high school or an adult. Little dreams are ones that we think we may reach within the next one or two years. In the space below, write your big dream and your little dream.

<b>My BIG Dream</b> (Examples could include: going to college or a vocational school after high school graduation, owning a house, etc.)	<b>My LITTLE Dream</b> (Examples could include: buying a skateboard or an iPod)
